

Building Futures Together

Apprenticeship Model

Created by Iconique
from Noun Project

Level I: Asynchronous Coursework (Canvas)
(Three 8-week courses)

Created by Becris
from Noun Project

Level II: On-the-Job Mentoring (2,000 hours)

Social and Human Services Assistant, specializing in working with children, youth and families impacted by opioid use disorders (OUD) and other substance use disorders (SUD).

Level I

Certified Recovery Support Worker training (CRSW)

- Intensive knowledge of substance use disorders, treatment, and recovery
- Taught by Addiction Counseling professor Peter DalPra at NHTI

Child, Youth, and Family Systems and SUD

- Impact of substance misuse on child youth development, including the impact on transition-age youth
- Family systems and SUD
- Taught by Nick Mian, Assistant Professor, Clinical Psychology, UNH

Infant Mental Health

- Impacts of Substance Use Disorder (SUD) on pregnant women and their babies or infants, with a particular focus on new parents with SUD, perinatal mental health, and attachment issues.
- Tools on how to assess risk, research-based strategies to encourage healthy attachment (especially during/after NICU care) and how to leverage natural and paid support networks to support the child and caregiver.
- Taught by Kelsey Brandon, Institute on Disability at CHHS UNH
